

THE OAK WOODS

THE OAK WOODS

2,377 total square feet

The Oak Woods features two covered timber porches. Whether it's to find a shady spot to escape the hot sun or to take cover from a rain storm and enjoy the sounds of the rain trickling on the roof, you're sure to enjoy a lot of time sitting under them in your favourite chair.

Just through the main entrance are the great room, dining room, and kitchen. This open concept floor plan is great for entertaining. The second entrance is off to the side of the house, a great place to kick off muddy boots and ample storage for extra coats. There is also a powder room just through the mudroom to the right. Finally, the master suite is to the back corner of the house with access to the back deck. The second floor plan features two more bedrooms, a bath, and loft space. Whether it be for kids or guests, the upper level has plenty of room to meet your needs.

*Building a dream...
no matter how big or small.*
