

THE EAGLE RIVER

THE EAGLE RIVER 2,484 total square feet

Although somewhat similar to the Newbury from the outside, the Eagle River boasts more square footage, a distinctly different floor plan and a garage to boot. At the entrance there is a large closet for boots and coats. To the right of the entrance is an office with large windows to let all the natural light in while busy working away. To the left is the master bedroom, complete with a generous walk in closet and ensuite. Down the hallway from the entrance is the open kitchen, and cathedral dining and great room. From there, a door leads out to the spacious deck, great for entertaining. Off of the kitchen is the mudroom, including pantry, that leads to the garage. The laundry and powder room are also located in the link to the garage.

The second floor features a loft looking over the dining and great room, a great hang out for the kids or a place to cozy up and read a book. Also, there are two bedrooms with a jack and jill bathroom, works great for kids and/or guests alike. One final feature is the bonus space over the garage that could be used as extra sleeping quarters, an entertainment space, or simply just for extra storage.

*Building a dream...
no matter how big or small.*
