

THE LAKESHORE

THE LAKESHORE *5,872 total square feet*

The Lakeshore is ideal for a vacation home with plenty of space for over night guests or a permanent residence for a large family. The large open concept floor plan, that includes the kitchen, dining and great room, is perfect for hosting the holidays or other celebrations. Off the dining room is the outdoor living area with a full kitchen, pizza oven and fireplace. The convenience of a small outdoor powder/change room, with a shower on the outside wall, will cut down on the amount of sand tracked in from the lake to the house. The left wing features a den or "man cave" for watching the big game, powder room, laundry and mudroom that leads to a two car garage. The right wing features a home office and the master suite with a large walk-in closet.

The second floor features four bedrooms, each with a private bathroom, great for guests or growing kids. The spacious loft over looks the great room and is a great place to watch movies, play board games, or read on a rainy day. The space above the garage features another bedroom with a private bathroom.

*Building a dream...
no matter how big or small.*
